## Mini Trend

I “mini trend” dell’arredamento italiano si riferiscono a piccole tendenze o temi emergenti nell’ambito della moda. Questi possono riguardare stili, colori, tessuti o dettagli specifici che diventano popolari in un breve periodo di tempo. Essi possono emergere dalle passerelle delle sfilate di moda, dalle influenze culturali o dalle preferenze dei consumatori. Questi motivi più piccoli possono aggiungere un tocco di interesse visivo e dinamismo agli spazi abitativi senza essere troppo dominanti. Possono essere utilizzati per aggiungere un tocco moderno e contemporaneo a un ambiente o per creare un contrasto interessante con altri elementi dell’arredamento.

The “mini trends” of Italian furniture refer to small trends or emerging themes in the fashion sector. These may concern styles, colours, fabrics or specific details that become popular in a short period of time. They can emerge from the catwalks of fashion shows, from cultural influences or from consumer preferences. These smaller patterns can add a touch of visual interest and dynamism to living spaces, without being too dominant. They can be used to add a modern and contemporary touch to a room, or to create an interesting contrast with other furniture elements.

## PANNELLI DIGITALI

Tutti i nostri pannelli digitali sono realizzati utilizzando come base un supporto di qualità da noi appositamente prodotto e certificato Bs2-d0, per questo motivo offre prestazioni eccezionali per il settore contract, residenziale, nei ristoranti e/o in quelle situazioni dove i materiali devono essere certificati e resistenti al fuoco.

I pannelli digitali da noi realizzati sono di due tipi: il primo, quello standard, ossia realizzati con grafiche e colori da noi proposti, nella misura 510X300 cm come da catalogo.

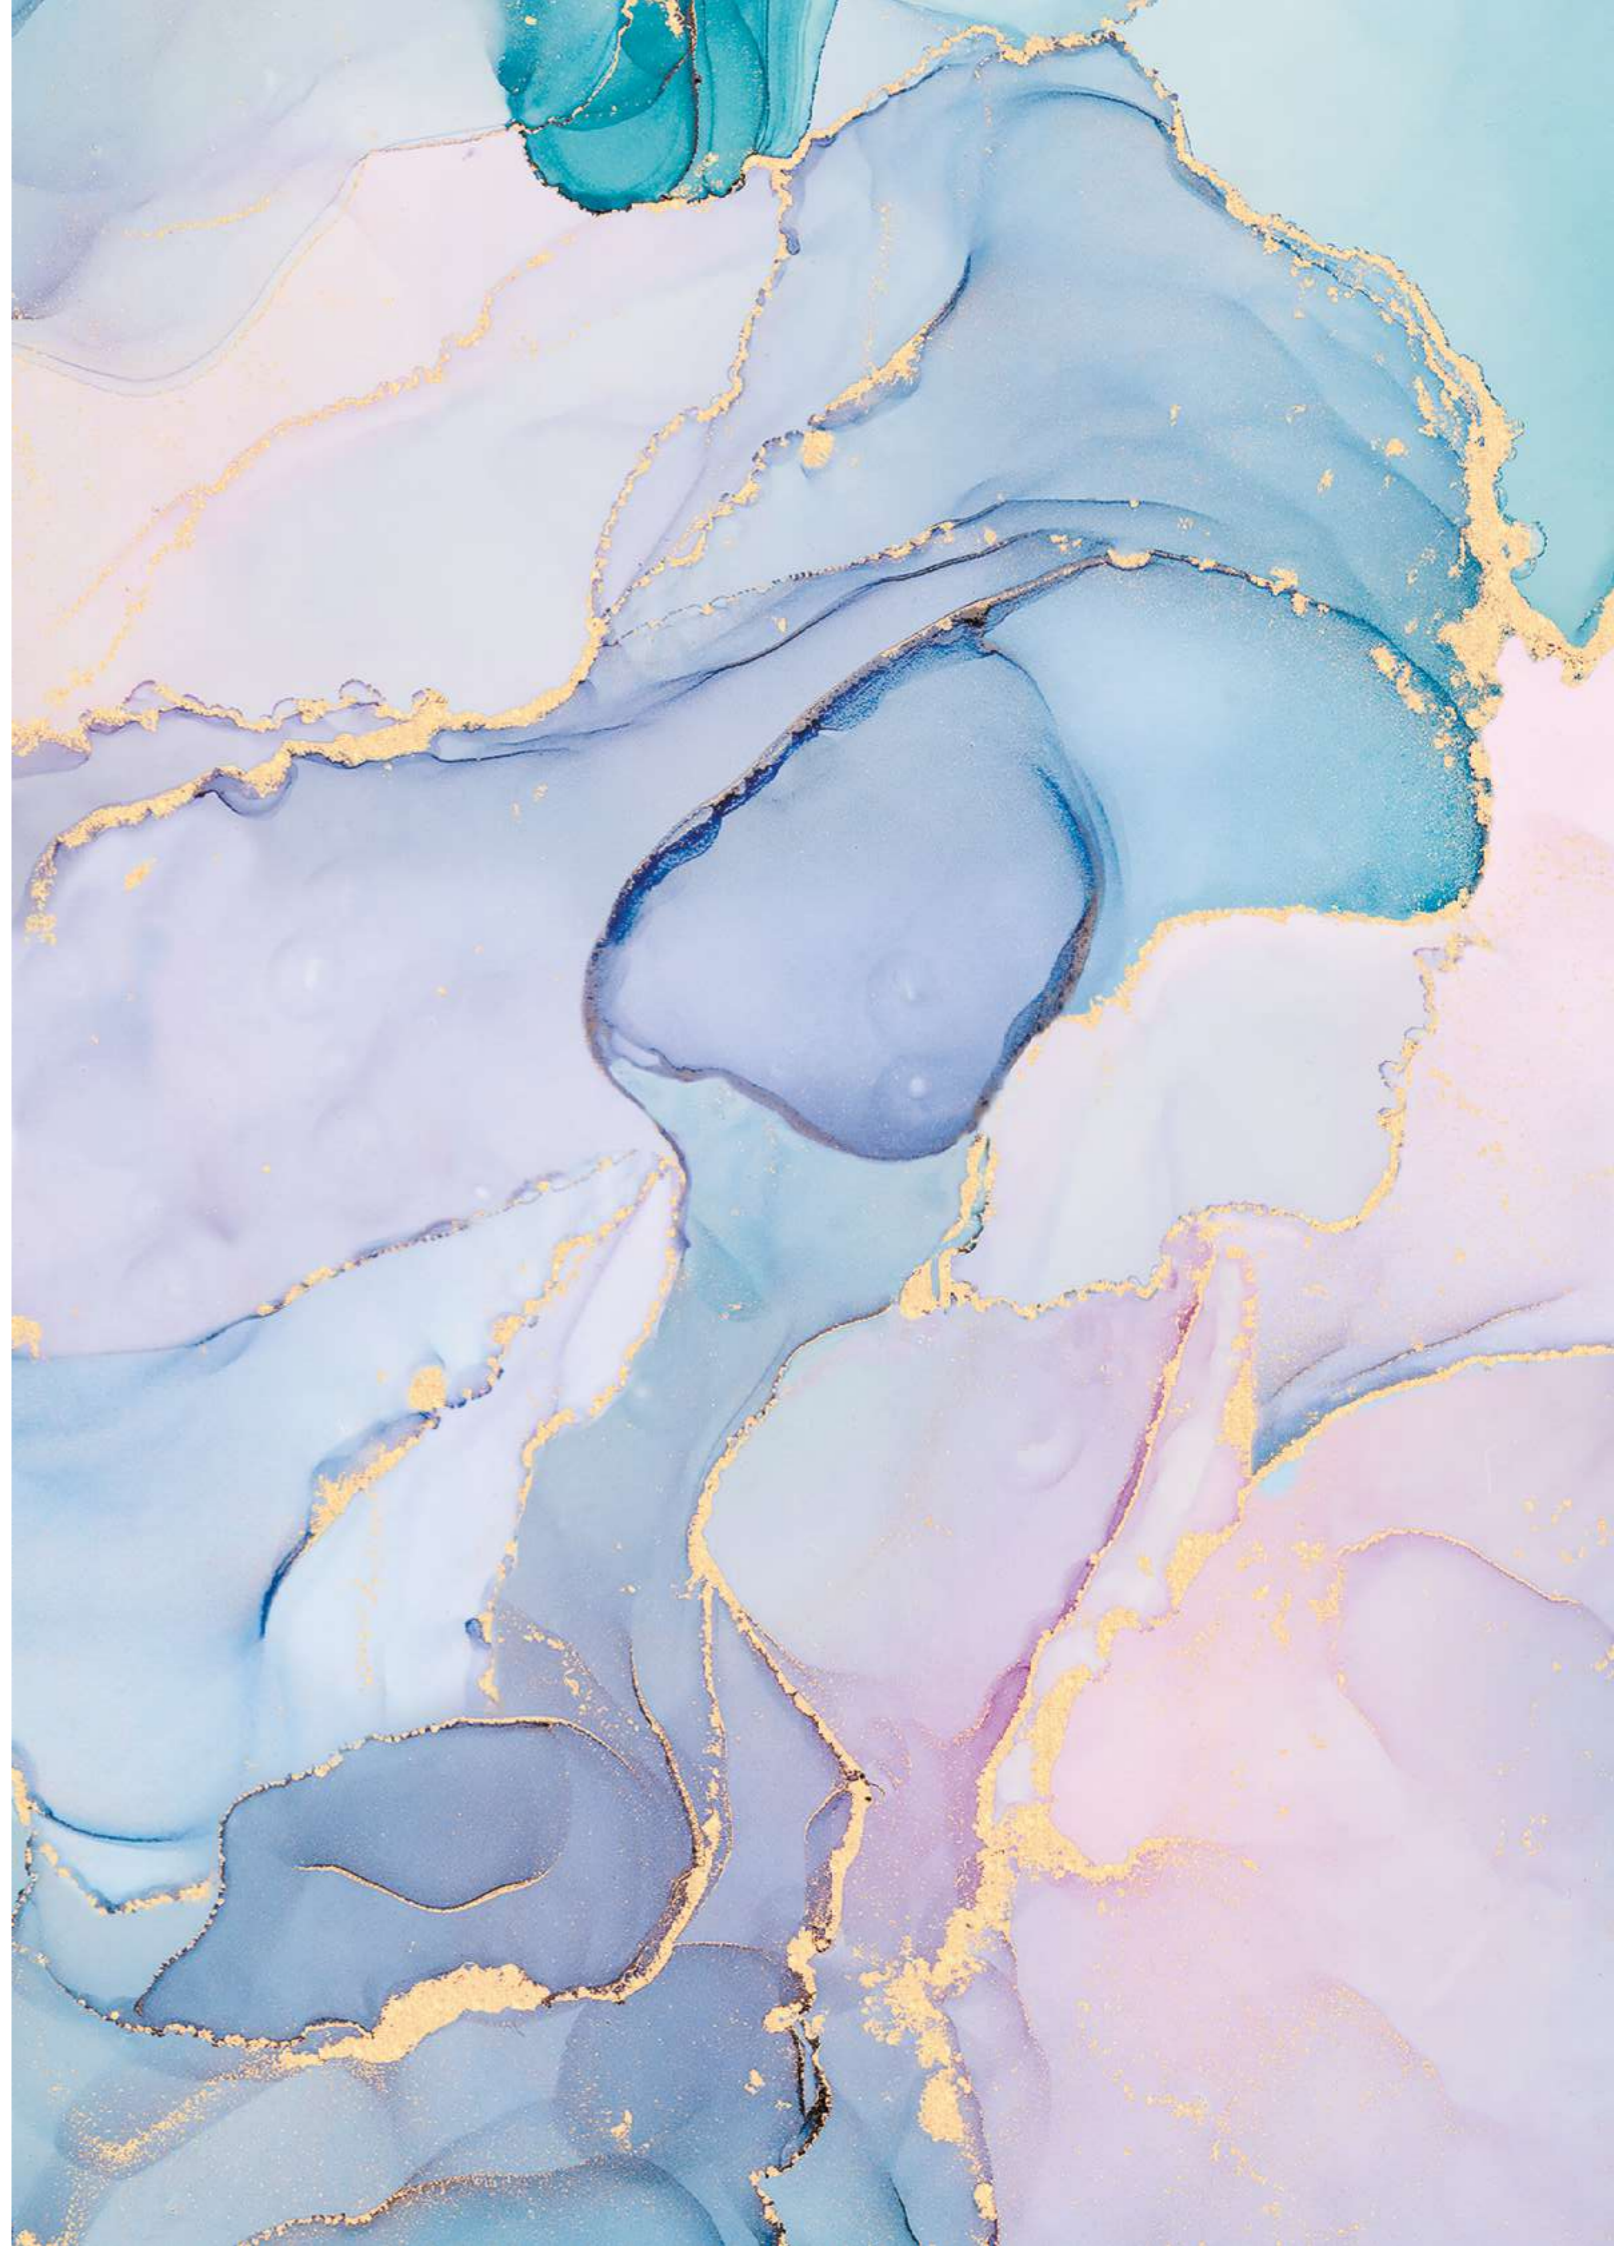

Il secondo, quello custom, ossia realizzati partendo dalle nostre grafiche ma prodotti in misure speciali secondo le richieste dei clienti.

## DIGITAL PANELS

*All our digital panels are made using for the bases a quality support specially produced by us, and certified Bs2-d0, for this reason, they offer exceptional performances for the contract, residential, restaurant sectors, and/or in those situations where the materials must be certified and fire resistant.*

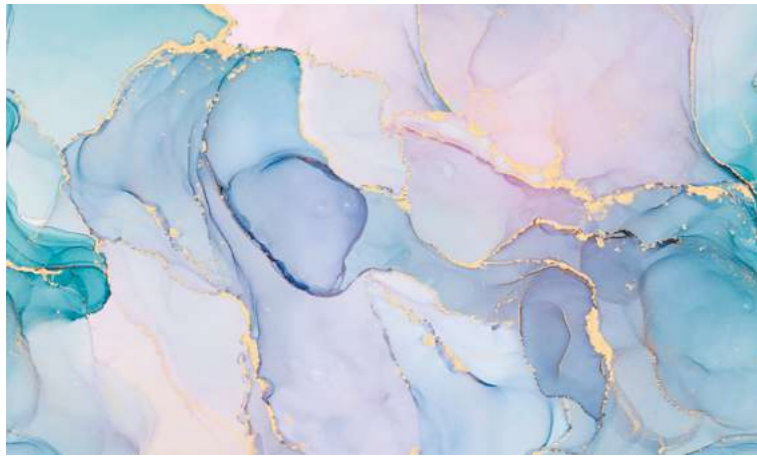

*The digital panels we make are of two types: the first, standard one, made with graphics and colours proposed in the size 510X300 cm as per the catalogue.*

*The second, custom one, made starting from our graphics but produced in special sizes, according to customer requests.*
